CATALOG

More than 2000 items are presented in 12th edition of our "Catalog of fluorinated compounds"

Almost all products are produced only by us.

Directory search is performed by chemical name, class of compounds, Cas number, catalog number and molecular formula.

Decafluorobiphenyl

Catalog Number: 0272 Purity: 99%

CAS: 434-90-2 Molecular Formula: C12F10

MDL number: MFCD00000292 Molecular Weight: 334.12

Physical properties **Additional information**

Melting Point, °C: 68-69 Irritant

Boiling Point, °C: 206

Density, g/cm³: 1.785

SMILES: Fc1c(c2c(F)c(F)c(c2F)F)c(F)c(c1F)F
